Immediate Past President's Message

Spring is here! I actually saw my first robin today so perhaps, this is a sign that old man winter has reluctantly stepped aside finally. Seeing our dining room at the Somerset Inn last weekend was also a boost that the weather was going to change. The bright spring colors of the napkins and tulip centerpieces were very uplifting! Kudos to the Henry Ford Macomb committee for the fine program and hard work that went into a successful Spring conference. Well done!

During the General Business Meeting at the conference, I announced that we are looking for candidates to run in our election this summer. We need to elect a Secretary, Treasurer and President-Elect. The Secretary term is two years but the Treasurer is two years with a one year mentoring for a newly elected candidate. President-Elect is a three year commitment and attendance at the National conference with the current President to represent Michigan. The nomination form can be found on our website and can be forwarded to me by June 1, 2014. This will give time for the candidates to accept and forward their pictures with a brief bio by July 1, 2014 so we can post them on the election portion of our website by August 1st. The election will be by electronic ballot and will run through till September 15, 2014. We have tried to make voting as easy as possible by you logging in by using your e-mail address and password being your last name in lower case letters. This will be the third year we have run our elections via the website and we will send out e-mail reminders weekly during the voting period so, PLEASE CAST YOUR BALLOT. Anyone on the Board will be pleased to help you with any questions you may have about the voting process. We also have a "contact us" on the website of you have any concerns.

We need new people on the Board as many of us are down to single digits to retirement and soon will not be available to mentor. We have always helped each other and you are never alone in any given task. It is with great concern that we have seen a few states fail with their organizations due to economics and lack of support. Fortunately, our organization has weathered most of the economic downturns and our MSGNA membership/charter has persevered. We have made a lot of changes in the past several years to service our membership better and new ideas are always welcome...what a better way to become involved and author it? Regards, Maria Edwards RN; Immediate Past President

Why Certify?

... Because the rules are changing.

In these days of health care reform and cost containment, cross-training, consumer education and self-determination, and managed care, it isn't enough just to be a good nurse. To be competitive, you've got to keep up - and keeping up with modern nursing means getting certified.

Download the [ABCGN certification brochure](#) and see why it pays to be certified.

Certification can help you:

- Expand your role in providing patient services
- Earn more money
- Advance in your career
- Improve patient care and
- Find greater satisfaction with your job.

All indications are that health care reform and cost containment will mandate more direct patient care by nurse specialists. In the near future, nurse specialists may qualify to perform diagnostic procedures, practice independently, provide care reimbursed by third party payers and manage and follow up on patients. Hospitals and clinics will seek out nurse specialists in order to attract provider contracts. How will nurse specialists be identified? They will be certified nurses.

Why? Because:

- Certification validates your qualifications and your advanced competence.
- Certification demonstrates your professional aspirations and your desire to improve the quality of patient care and delivery of services.
- Certification rewards your continuing efforts to improve your knowledge and skills in your profession.
- Certification reflects your commitment in time, effort and expense to gastroenterology nursing.
- Certification assures professional recognition from your peers and colleagues.

Certification is a voluntary process of validating knowledge, skills and abilities beyond the scope of RN licensure. Nursing certification has benefits for patients and families, employers, and nurses. The body of research relating to certified practice is also growing, quantifying the outcomes of certified nursing practice.

Evidence Supporting Certification

["Promoting Excellence in Nursing Certification" by the American Board of Nursing Specialties](#)
["The Value of Certification" by Nancy Eisemon, MPH, RN, APN, CGRN & Allison Cline, MA](#)

Certification will help you gain recognition for both your competence and your professionalism. Don't get left behind. Get certified.

Certification Exam Study Tips

Gather Support

Identify a study buddy or form a study group. One of the benefits of a study group is the psychological support that members receive from each other throughout the study process. If no one is available contact SGNA's Mentor program. There may be nurses in your area that will be able to get together. Sometimes, just talking to a mentor will give you insight into how to organize your study schedule.

Study groups are most effective if 3-6 people are able to participate. If a study group is not possible, you can be a study group of one!

Once the group is formed it is important to set the ground rules. Identify a time, place, and responsibilities that are agreeable to the group.

First Step in Organizing a Study Group Activity

Whether you study alone or you study in a group you need to develop a "study plan". Develop

an outline of study topics from this plan. If you are in a group, identify one person to put together the study topics. If you are in the group to choose topics that you are **weak in**.

Determine a study schedule. If the group wants to study a topic in depth because of lack of exposure at your facility, you may devote more time in these areas. A study schedule should take from six to twelve weeks, depending on the group or individual needs.

Study Tips

- Try to study every day
- Avoid cramming
- Spend more time on your weak areas
- Pick a time to study when you are most alert. Research shows that the morning and early evening are best.
- Stick to the study schedule
- Keep breaks short 3-5 minutes is adequate
- Study one topic at a time
- The next day review what you learned the day before
- Make outlines and map out what you learned and develop questions from your outline
- Reading out loud helps reinforce the material
- Tape record important items you want to remember or have difficulty in remembering and listen to them to and from work
- Flash cards or index card may be helpful
- Post a topic or drug of the week by the phone

The certification exam questions are written so the candidate uses critical thinking skills. There are certainly many recall or memory items, but the majority has you reflect on your practice and come to a conclusion with the right answer. Many of the questions will ask you to prioritize, or answer what is BEST, or MOST LIKELY. If you are a person who likes to memorize data, try to not only memorize the data but think of an example, so you really know it. If you don't understand it search it out.

We are going green for MSGNA! We will be sending emails with registration information to each member and facility for our Regional Spring and Fall Conferences. Attendees will be able to register and pay for the conferences utilizing the MSGNA.org website with PayPal! Vendors will also be able to use PayPal for their table fees! The Board of Directors would like to encourage every member to attach an active email address to their profile on the SGNA website. This email address will be how we communicate with you most, send the Pathfinder, your log in to register for conferences and your log in to vote in our annual election for the Board of Directors! Email addresses for hospitals usually have security settings that will not allow the newsletter to be sent through so we suggest a personal email be used like a gmail or yahoo account. Sincerely, Sheri King BSN CGRN Newsletter/Website Editor

MSGNA General Business Meeting Minutes

March 29, 2014
Somerset Inn, Troy, MI

1. President's Report-Patti Yonkovit, RN, BSN, CGRN: Welcome and thanks for attending. Thanks to Sheri Sherri King and the Endoscopy staff at Henry Ford Hospital-Macomb for hosting this awesome conference.

In the upcoming Pathfinder, you will find the Resolutions from the 2014 House of Delegates. Please review and forward your viewpoints to Patti. They will be voted on at the 2014 SGNA 41st Annual Course in Nashville in May.

2. Past President's report-Maria Edwards, RN:
 - Nominations for President-Elect, Treasurer, and Secretary due by June 1st, 2014

At the Spring 2014 Conference there was a lot of confusion and complaint about the length of vendor visit and the signature card. Our vendors support our regional society in ways that not everyone understands. We have to support our vendors by giving them time with the attendees of the conference. The Board of Directors can perhaps review the break periods so they are not excessively long so that the day is not too long. Having the vendors sign the orange vendor cards to be entered into a drawing for door prizes mimics the “Passport to Prizes” that is held annually at the National Course. The vendors donate the prizes, attendees have to fill out every spot on the card, enter drawing and be present to win. MSGNA only asks you have 10 signatures on your card to enter into the drawing. In no way is this meant to penalize our attendees, but to encourage visitation and patronage to our vendors.

Sincerely, Sheri King BSN, RN CGRN

When I was discussing the use of internet, online registration and postal service at the last general business meeting in March, my comments offended some of our attendees. *I sincerely apologize and regret that I did offend anyone. I am very sorry.* I did not mean to offend anyone by saying that using the postal service was "old fashioned", I meant that using the postal service was registering the same way we have always done. As a group, MSGNA has been pushed and pushed by the majority of our membership to move everything we can into a computer format, especially for payment. We have been able to register online and pay using PayPal but we cannot accept credit cards by mail or on site for registration.

The evaluation form for the conference was a great forum for everyone to let us know what went wrong and what went right. It is also a great forum to let us know what you would like to see in the future.

We received such open and honest feedback and I am so happy to have received that information. It will make our regional society that much stronger.

Thank you,
Sheri King BSN, RN, CGRN

SedationFacts: Get the Latest on Your State's Sedation Regulations and Earn Free Contact Hours

Have you visited [SGNA's SedationFacts](#) lately? This comprehensive portion of SGNA's Web site serves as a central repository for endoscopic sedation news, reference materials and guidelines, and a range of information designed to address all aspects of this topic.

Two important reasons to visit [SedationFacts](#) include:

1. Check out the **enhanced section on state sedation administration regulations and standards**. Make sure you are up to date on the regulations and standards for your state. This section includes information from the State Nursing Board, State Medical Board and legislative bodies on each state page, and you'll also find reliable links for additional state-specific resources.
2. **Earn 2.25 free contact hours!** Further your knowledge in sedation by reviewing the [SedationFacts page](#) and complete a short online quiz to earn your free contact hours.

To learn more, visit www.sgna.org/sedationfacts.

The **SGNA Career Center** provides added usability for our job seekers and employers, making it even easier to connect people together. To continue your job search through SGNA, you will need to re-post your resume to the new SGNA Career Center. You can take advantage of functionality including:

- **FREE and confidential resume posting** – Make your resume available to employers in the industry, confidentially if you choose.
- **Access to the National Healthcare Career Network (NHCN)** – NHCN is a growing network of more than 250 healthcare associations and professional organizations.
- **Job search control** – Quickly and easily find relevant industry job listings and sign up for automatic e-mail notification of new jobs that match your criteria.
- **Easy job application** – Apply online and create a password-protected account for managing your job search.
- **Saved jobs capability** – Save up to 100 jobs to a folder in your account so you come back to apply when you are ready.
